MEMORANDUM TO:   
SUBJECT : Camera Switch

This is to confirm our conversation of yesterday concerning the cockpit control switch for the A-1 cameras. In my opinion, it is operationally unacceptable to have both the Tri-met and the Swing 24-inch controlled by a single switch. Arrangements must be made whereby the pilot can select the operation of either or both the Tri-met and 24-inch camera.

Colonel, USAF  
Director of Operations

AMW/aem
